

employment

2005- Present

Freelance Web Developer/Designer

Most recent clients:

Autom8 Connect, Birmingham, United Kingdom
www.autom8connect.com

Autom8 Connect brought me in last minute due to their developer leaving. Wireframes had been created and I needed to pick up where they left off. The site was to be done quickly for a launch date. The brief was to create a fun and friendly personality to a new product.

Rougey Lodge, Bundoran, Donegal
www.rougeylodge.com

The brief was to show the quality of accommodation along with the fun warming atmosphere that the hostel has to offer. The owner wanted a lot of information to display above the fold staying away from the generic banner image.

Apr 15-Sep 15
